

AMAN HAJARE

Python Developer

✉ pawaraman211@gmail.com ☎ +91 930-291-4757  LinkedIn/aman  github.com/aman

CAREER SUMMARY

Python Backend Developer skilled in Python, FastAPI, and Django, with experience building scalable APIs, JWT authentication, RBAC, and multi-tenant systems. Focused on writing clean, secure, and production-ready code.

INTERNSHIP EXPERIENCE

Software Developer Intern | Indew Technology Pvt. Ltd. 07/2025 – 08/2025 | Indore
Completed a 1-month internship under the Software Development Department. Contributed to assigned software development projects.

EDUCATION

Bachelor of Technology | AI and Data Science, Prestige Institute of Engineering 2026 | Indore

Higher Secondary | PCM-MPBSE, SSVM 2022 | Chhindwara

TECHNICAL SKILLS

Languages & DBs

Python, SQL, MySQL, PostgreSQL

Backend

FastAPI, Django(Basic), AsyncIO

DevOps & Tools

Docker, Redis, Git, GitHub, Celery, AWS(EC2)

PROJECT

TaskFlow AI, Multi-Tenant Task Management SaaS Platform

Tech Stack: FastAPI, PostgreSQL, SQLAlchemy, Redis, Celery, WebSockets, Docker

- Built a production-grade multi-tenant backend with strict data isolation and a scalable Service Layer + Repository architecture.
- Implemented JWT authentication, RBAC, and an event-driven architecture using a custom Event Bus to decouple business logic.
- Integrated Redis for caching/rate-limiting and Celery for asynchronous background jobs and distributed task scheduling.
- Developed real-time WebSocket notifications and AI-powered features for task priority prediction and workload balancing.
- Containerized the system using Docker and implemented structured logging, exception handling, and OpenAPI documentation.

HOBBIES & INTERESTS
